THE POTTER COMMITTEE.

If any modern Shakespeare should happen to be about he could easily find the material for a drama in the Potter committee and its adjuncts. It is indeed not a light drama. The secret cabals from which the committee was educed, the origina design of it, the personelle of it, such witnesses as have come and will come before it, and possible results would furnish events, and characters rivalling Richard III, Fallstaff or Shylock. The first thing that naturally occurs to any man of sense is, why this committee at all? To what purpose? Hayes is seated in his chair and can be removed by no power short of assassination or revolution during his four years. Why all this digging into the dirtiness of Louisiana politics and the flinging of filth broad-cast? It is our opinion that Postmaster General Key was right when he declared to the southern people that it portended civil strife and blood, and that Mr. Stephens was right when he proclaimed that it would end either in a tragedy or a farce.

The witness, Anderson, the first brought before the committee, testified that in his testimony before the Senate Committee of investigation more than a year ago in regard to the intimidation in Past Feliciana Parish, he testified to what he knew to be false. He says that there was no intimidation in that Parish. but that he was bribed by the offer of official position to swear to what he knew to be a lie in order that the vote of the Parish might be thrown out and thus Packard and Hayes be elected. It therefore follows that very many will be ousted. from their possessions on process of

The history of our homestead is a little exceptional. When the amount had been fixed upon by the Constitutional Convention of 1868, and the provision was approaching its final passage, an amendment was offered to strike out the words "from and after the ratification of this Constitution." After quite a lengthy debate the amendment was adopted by nearly a twothirds vote. The Constitution having been adopted by a very large majority, very many people availed themselves of the provision of this feature. Very soon a test case was made up, and carried on a question of law to our Supreme Court. That Court decided in favor of the validity of the retroactive feature. It was not until last year that a case was carried to the Supreme Court of the United States. That Court has now reversed the decision of the court below, and thus the retroactive feature of our homestead falls to

the ground. In the meantime the homestead has entered largely as an element in to our state politics. It has always been an exceedingly popular provision among the people. The best evidence of this is the fact, that the Democrats at their convention of 1875 did not dare to interfere with it, but on the other hand pledged themselves to its support. Its adoption undoubtedly averted a very Q .- You gave testimony on one side great calamity from our state. TEXT OF THE INVITATION. The following is the text of the German note of invitation to the Congress

LONDON, June 3, 1878. The undersigned, the Ambassador of the Emperor of Germany, has the honor, by order of his government, to conof India, the following communication: 'In conformity with the initiative taken by the Austro-Hungarian Cabinet the government of His Majesty, the Emperor, has the honor to propose to the Powers, who are the signatories of the treaties of 1856 and 1871, to meet in Congress at Berlin to discuss there the stipulations of the preliminary treaty of San Stefano, concluded between Russia and Turkey. The government of His Majesty, in giving this invita-tion to the government of Her Britannic Majesty, understands that in accepting it the government of Her Britannic Majesty consents to admit the free discussion of the whole of the contents of the Treaty of San Stefano, and that it is ready to participate therein. In the event of the acceptance of all the Powers invited the government proses to fix the meeting of the Congress for June 13th."

The undersigned, in bringing the above to the knowledge of His Excellency, has the honor to ask him to be good enough to acquaint him as soon as possible with the reply of the British government.

THE SHOOTING OF EMPEROR OF GERMANY. On the 2nd of June as the Emperor

William was riding along the Unter den Linden in Berlin shots of buckshot were fired from a window wounding him badly in the face and one arm. The Emperor was directly driven to the Palace when it was found that he was wounded by about twenty shot, seven in the right fore arm, five in the head and face, and six in the neck. There were two shots fired. It is not thought by the medical men that his Majesty is fatally wounded, but he has by a decree declared the Crown Prince. Frederick William, as Regent.

The assassin turns out to be Dr. Karl Edouard Nobiling, a man of science and fair family. Ex-President Grant has been interviewed in Paris in reference to the statement by one General Richard Taylor that President Grant had fought his campaign in Virginia against his own judgment, and in doing so had thrown away the lives of 100,000 men. The object of this lunatic Taylor's statement was to show that Lincoln and Stanton were responsible for this great loss of life. To this Gen. Grant very plainly replies:

But why should he be believed now any more than he was last year!

Last year, he says, he lied in the interest of the Republicans, chiefly of Nash, who had promised him a place in the cap. A pertinent question just here is, year he is lying in the interest of the Democrats, chiefly of Potter, who is in an agony of fear least his investigation an agony of fear least his investigation shall come to nothing. STATE ITEMS.

One of our State Fichinges very truly says that the Democratic party has used every method to induce the Republican party to adopt and practice honesty and economy, in the administration of the government except indeed that of setting them the example.

The Spirit of the Louth goes for Goy Vance thusly :- Gov. Vance certainly owes us one. We spiked one gun that was belching forth against his Senatorial aspirations. But we do not claim that he owes us much, for it was such a very small gun that we silenced-a mere "pop-gun," and three-fourths of it yankee at that; indeed, we don't think any part of the "piece" southern except the touch-hole! "Are we under-

The North State says: - It may be that cratic candidates, which have been pub- Board, per month, \$25. lished in the Raleigh papers, are not signs of dissension in the ranks of that party, but like the soft melody of the bats on the housetop of a moonlight night are the esual preliminaries to a large increase of Democratic votes. We can't "most always; sometimes tell." It requires a better judge of cats and Democrats than we are to be able to ay with any degree of certainty whether their infernal row is the hearse chalenge of grim-yisaged war or only the dulcet note of amorous dalliance. But after all it may be that they are a "band of brothers," as indeed, were Cain and Abel for that matter.

The Statesville American; Republican in politics, has the following to say in egard to Congressman Robbins : - Hon. W. M. Robbins has been on a visit to his family in this place, the past week and is in good training for another term. Major Robbins has worked hard and faithfully for a reduction of the tobacco tax, and other measures of importance to the people, and if he has failed of success, the fault is of the leather-heads in Congress who oppose every measure that is not to their stupid notions and interests, to the injury of the country. We hope when he returns, better success will attend his efforts but the American Congress is a huge leviathan, very unmanageable, as those will discover who undertake to harpoon the beast no slur intended. The tobacco tax ought to be reduced. The tax on state banks ought to be taken off. The circulating, medium of the country ought to be increased, with other beneficial legislation and until these measures are consummated, the prosperity of the people will wane,

The Elizabeth City Carolinian has the following sensible article in regard to the so called Congress of the United States: We feel satisfied that we are in bounds when we assert that never in the history of Congress has there been gathered together at Washington a body so totally devoid of principle, an organ ization so loosely held together, or one that did things so uniformly without reison. It has had no definite policy and has neither originated nor carried out a single measure which can possibly relieve the country of its present troubles, or that does, in any way, hold out hope for the future. Holding up silver as the great panacea for our financial troubles, it got through a measure which had no effect whatever upon the finances of the country: It tackled the national debt, with the oft-repeated threat to wipe it out with a sponge, thereby lowering our credit abroad, and inspiring our people at home with a feeling of uneasiness that was quite as bad as a fully developed panie. So erratic have been the movements of this queerly constituted body that no man living could feel safe in doing anything. Nobody could say with any degree of certainty what it was going to do with anything, and so every man with a dollar buttoned it up, and sat down to wait. To the Democratic House at least two years of business dullness and inaction may properly be charged.

ca, where Nature provides in her laboratory such surprising antidotes for the maladies of her chil-dren. Its fame has been spreading for 30 years, until now it encircles the habitable globe.

The Mexican Mustang Liniment is a matchless

medy for all external allments of man and bear To stock owners and farmers it is invaluable. A single bottle often saves a human life or re-tores the usefulness of an excellent horse, ox, It cures foot-rot, hoof-all, hollow horn, grub

It cures footrot, hoof-all, hollow horn, grub, screw worm, shulder-rot, mange, the bites and stings of poisone us reptiles and insects, and every such drawback to stock breeding and bush life.

It cures every external trouble of horses, such as lameness, scratches, swinny, sprains, founder, wind gall, ring-bone, etc., etc.

The Mexican Mustang Liniment is the quickest cure in the world for accidents occurring in the family, in the absence of a physician, such as burns, scalds, sprains, cuts, etc., and for rheumatism, and stiffness engendered by exposure. Farticularly valuable to Miners.

It is the cheapest remedy in the world, for it penetrates the muscle to the bone, and a single application is generally sufficient to cure.

Mexican Mustang Liniment is put up in three sizes of bottles, the larger ones being proportionately nuch the cheapest. Sold overywhere.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

which is at once agreeable, healthy and effectual for preserv-Faded or gray Chair is soon restored to its

original color, with the gloss and freshness of youth. Thin hair is thickened, falling bair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely

An Astonishing Fact.

A large proportion of the American people are to-day dying from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a Burden instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flowers. Your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try, Three doses will relieve the worst case. Positively sold by all Druggists on the Western continent.

NIJNE NOVGOROD FAIR.-The great market of the eastern world has been held at this junction of the Volga and Olga rivers in Russia, every summer for hundreds of years. Here the nations of Europe and Asia meet with their products for trade. Cossack, Chinese Turk and Persian meet the German and the Greek with every variety of merchandise that mankind employs, from sapphires to grindstones, tea, opium, fur, food, tools and fabrics, and last but not least, medicines. J. C. Ayer & Co.'s celebrated remedies from America were displayed in an elegant bazar where the Doctor himself might sometimes be seen. They are known and taken on steppes of Asia as well as the prairies of the west, and are an effectual antidote for the diseases that prevail in they acourts of the north as well as the huts and cabins of the western continent .- Lincoln (Illinois) Times.

A Remarkable Result.

It makes no difference how many Physicians, or how much medicine you have tried it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages, Asthma, Severe Colds, Coughs, &c. who have no personal knowledge of Boschee's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives try just one bottle. Regular size 75 cents. Sold by all Druggist.
